

I support media diversity

I am writing to you today to comment on Docket No. 02-277, The Biennial Review of the FCC's broadcast media ownership rules.

Having recently been exposed to this concerning issue, I must implore you to do all in your power to prevent the deregulating, or eliminating all together, any of the rules governing the control over media ownership. This issue has been virtually ignored by all media outlets - further exemplifying the contempt and neglect they have for public input, thereby securing company interests to profit from our ignorance. Furthermore, such an act as loosening the laws governing the limitations a single organization can own, would prophetically create a corporate monster that would eventually rival any governmental body and systematically destroy any confidence or opportunity for "new blood" to exist within the marketplace.

Unshackling the chains which bind the syndicate of media titans would be tantamount to creating a corporate dictatorship, supremely independent of any need for regulation or control and capable of eliminating any and all interference to supply us with information only THEY want us to Know.

Are you prepared to let that happen?
